|-----|--|
| vii | Programme |
| 1 | Introduction <i>Bjelkhagen, H.I.</i> |
| | Emmett Leith & Yuri Denisyuk Memorial |
| 2 | Emmett Leith: Early work and influence <i>Johnston, S.F.</i> |
| 8 | Yuri Denisyuk: An appreciation <i>Johnston, S.F.</i> |
| | History & Education |
| 14 | The history of holography: Multiple visions <i>Johnston, S.F.</i> |
| 20 | Daguerreotype holography <i>Miller, S., Elliott, A., Gouthro, J. and Wilksch, P.</i> |
| 25 | Holography, art, and science – a course of study at Irvine Valley College, California, USA <i>Trolinger, J.D. and Markov, V.</i> |
| 32 | Teaching holography: New problems, new courses and new students: A case study in teaching holography as a problem-based learning project to engineering and physics foundation year students <i>John, P., Gates, J., Clark, D., Pennington, R., Himsworth, M. and Barney, A.</i> |
| 37 | “New on the Map”, Holography at Kun Shan University, Tainan, Taiwan <i>Huang, Y.-L. and Cheng, C.-H.</i> |
| 41 | Holography in higher education (Universities, Engineering or Art Schools, etc.) <i>Larkin, A., Schepinov, V., Grosman, M. and Fontaine, J.</i> |
| | Recording Materials & Processing |
| 47 | Ultra-fine-grain emulsions and the SilverCross project <i>Mirlis, E., Bjelkhagen, H.I., Crosby, P., Phillips, N.J. and Green, D.</i> |
| 55 | Intrinsic properties of holographic recording materials: principles and devices used for an objective evaluation <i>Berken, P.-Y., Rosso, V., Duy, L.K., Lion, Y. and Renotte, Y.</i> |
| 61 | FUJIFILM – New film technology for the display holographic market <i>Jackson, G.</i> |
| 65 | New ultra-fine grain photofilm for pulsed colour holography <i>Sazonov, Y., Gradova, O., Zacharovas, S., Bakanas, R., Gudaitis, G. and Brotherton-Ratcliffe, D.</i> |
| 69 | Multi-layer systems with DESA emulsions <i>Dünkel, L., Eichler, J., Schneeweiss, C., Ackermann, G., Chruscicki, S. and Dünkel, H.</i> |
| 73 | Colourholographic Ltd BBPan panchromatic emulsions for recording colour holograms <i>Ulibarrena, M., Vale, M. and Medora, M.</i> |

78 **Improving the remarkable photosensitivity of dichromated gelatin for hologram recording in green laser light**
Blyth, J., Lowe, C.R. and Pecora, J.F.

84 **Eosin Y/triethanolamine dispersed poly (hydroxyethyl methacrylate-co-methyl methacrylate) photopolymer**
Lin, S.-H. and Hsu, K.Y.

87 **Organic and inorganic recording medium for registering optical (classical 2D/3D) and digital (computer-synthesized Fresnel CGH) 3D holograms**
Girnyk, V.I., Kostyukevich, S.A. and Braginets, E.V.

Electronic, Digital & Computer-Generated Holography

93 **Small individual computer generated holograms, produced in one second**
Noehte, S.

97 **Real-time three-dimensional object reconstruction of digital holograms using liquid crystal spatial light modulators**
Hsieh, M.-L., Chen, M.-L., Tu, H.-Y., Lin, L.-C. and Cheng, C.-J.

102 **Improvement of direct fringe printer for computer-generated holograms**
Yoshikawa, H. and Mitsui, K.

107 **Two approaches in the development of goggles-free 3D display systems**
Markov, V.B., Kupiec, S.A., Travis, A.R.L. and Saini, G.S.

113 **Large viewing angle projection type electro-holography using mist 3-D screen**
Sato, K. and Takano, K.

117 **Electronic holography at terrahertz and infrared frequencies**
George, N., Khare, K. and Chi, W.

Art Concepts

120 **As I see it – The absence of darkness**
Jung, D.

123 **Architectural application and maintenance for art holography**
Ishii, S.

129 **Beneath the surface: New works from the Strata Series**
Weber, S.

134 **Holography in the history of contemporary art**
Garcia-Robles, R.

141 **The prime illusion: Modern holography in the age of digital media**
Richardson, M.

145 **Words and images in time and space: An exploration of the use of text in fine-art holography**
John, P.

150 **The evolution of pseudo colour reflection holography. And where we are today**
Beguiristain, I.

- 155 **A holographic portrait of Queen Elizabeth II**
Munday, R.
- 165 **An illustrated journey inspiring the audience with future visions of holography textiles & design**
Affolderbach, A.
- 170 **Spatial dynamics within reconstructed holographic images**
Mrongovius, M.
- 177 **“Presence”: A review of holographic works exhibited at the Butler Institute of American Art**
Cvetkovich, T.J.
- 183 **On the currents: Revelations in recent works**
Bruck, R.
- 187 **Supporting creative holography: The Shearwater Foundation 1987–2004**
Pepper, A.

Colour Holography

- 193 **Colour holography – state of the art**
Bjelkhagen, H.I. and Mirlis, E.
- 200 **Large format digital colour holograms produced using RGB pulsed laser technology**
Brotherton-Ratcliffe, D.
- 209 **Phase-shifting electro-holography for recording and reconstruction of wide 3D color images**
Sato, K., Fujiwara, H., Hamada, S., Fujii, K. and Morimoto, M.
- 215 **Colour holography in optics courses at Lund Institute of Technology**
Pettersson, S.-G.
- 222 **A new device for holographic photography**
Zacharovas, S., Bakanas, R., Pileckas, J., Nikolskij, A., Bakanas, R. and Brotherton-Ratcliffe, D.

Scientific, Technical & Medical Holography

- 228 **Holography, relativity and the spooky ellipsoids**
Abramson, N.
- 236 **Rapid wireless transmission of holographic 3D images for remote educating process**
Takano, K., Wakabayashi, R., Miyashita, K., Nomura, I., Shiokoshi, R., Muto, K. and Sato, K.
- 240 **HoloPov: a program for predicting image geometry in display holograms**
Bazargan, K.
- 247 **The electric-field dependency microscopic morphological compensation for phase-separated composite film**
Chang, C.-F., Chan, Y.-C. and Wan, Z.-n.

The Business of Holography

- 250 **Embossed holograms from silver halide masters**
Pizzanelli, D.

- 256 **The impact of holography on the commercial lighting industry**
Crenshaw, M.
- 260 **SWISSGRAM™: A new holographic security solution**
Hauser, R. and Zhurminsky, I.
- 263 **Advances in holographic replication with the Aztec structure**
Cowan, J.J.
- 268 **Optical watermarking system by digital holography**
Lin, L.-C., Cheng, C.-J. and Chen, C.-L.
- 271 **Nickel electroforming: An essential tool for the holographic industry**
Hart, T.
- 276 **Bringing commercial viable holographic products to market: From idea to customer**
Ciaudelli, J.
- 279 **Encryption of holographic photonic crystal for security packing**
Zhang, X. and Liu, S.
- 283 **Author Index**
